TakeGRE.com and GREword.com offer classroom courses for GRE test by Superb Faculty in association with Achievers Point, World # 1 Question Bank for GRE . We provide you CBT labs and an ideal learning environment, apart from unlimited one to one personal doubt clearing sessions.

How do we produce Achievers?

90th Percentile Faculty:

We do not hire a faculty on monthly salary basis. Achievers Point is promoted by a group of 90th percentile faculty.

Real stuff from the horse's mouth:

AchieversPoint trains a large number of students not only through classroom training but through correspondence and online tutoring as well. Each of our students get interaction with the real question which has appeared in exams recently because many of our students appear in examination everyday. Once someone encounters an unfamiliar question the very next day the same question will be with students of our class in the form of a class quiz.

24/7 Helpline: Need Help?:

Our mentors are available for you round the clock through our website.

Research and Development Cell:

Achievers Point carries the tag of "World's # 1 question bank for GRE". Our research team has created numerous questions based on the real pattern.

Score 1500+:

Being "Achievers" is not an exceptional thing at Achievers Point, it is just a way of life.

Structure of the GRE

What is a Computer-Adaptive Test?

In a computer-adaptive test the computer screen displays one question at a time which is chosen from a very large pool of questions categorized by content and difficulty. The first question is always of a medium difficulty and each subsequent question is determined by your responses to all the previous questions. In other words the CAT adjusts itself to your ability level - you will get few questions that are either too easy or too difficult for you.

The GRE splits into three sections

Section	Score Range	Number of Questions	Topics	Time
----- Computer Tutorial -----				NA
Essays	1-6	2	One Issue One Argument	45 min for Issue 30 min for Argument
----- Break -----				10 Minute
Verbal	200-800	30	6 Sentence Completion, 7 Analogy, 8 Reading Comprehension 9 Antonym	30 Minute
Math	200-800	28	14 Problem Solving 14 Quantitative Comparison	45 Minute
Total	1600		58 Questions	3 Hours Approx

Retaking GRE

GRE policy states you may take the computer-based GRE exam once per calendar month. If you test more than once per month, your new scores will not be reported and your test fee will be forfeited. All your scores will be written in the report as long as they are valid (less than 5 years.) thus, if you take the GRE for the 10 times in 3 years (not more than 5 times in a year and one time in a month) all your scores will be reported. If you even cancel you score, then they will indicate that this person on this date and in this place (Place of exam- code of it) took the GRE and canceled his/her exam. It's a varying policy, but the Universities may choose to look at the best score, the average or a combination of both depending upon the strength of the other parts of your application. So you really cannot choose to send "Any Particular" scores. The University will know all your GRE scores in the last 5yrs I believe, for which they keep the record of your examination valid.

GRE Experimental Section:

In addition to the three scored sections namely: Verbal, Quantitative and AWA, there may be one 'experimental' section that looks like one of the scored sections; but does not count toward your score. ETS uses the experimental section to pre-test the questions that will show up on the scored sections of future GREs. It looks just like one of the scored sections, so you won't be able to identify it. Never even try to identify this section.

A test-taker may get any of the following GRE CAT combination:

1. AWA (Issue-Argument) – Verbal (experimental) – Verbal (Real) – Quantitative
2. AWA (Issue-Argument) – Verbal (Real) - Verbal (experimental) – Quantitative
3. AWA (Issue-Argument) - Verbal (Real) – Quantitative (experimental) - Quantitative (Real)
4. AWA (Issue-Argument) - Verbal (Real) – Quantitative (Real)- Quantitative (Experimental)

A test taker may also get a direct test pattern without an experimental section.

- 1 AWA – Verbal – Quantitative
- 2 AWA - Quantitative - Verbal.

GRE Research Section:

Some other students have also received research sections instead. The research sections are clearly marked out, and usually involve a bit of money to be earned (if you perform creditably). It is research section for which you bid for US\$ 200.00. This one too doesn't count toward your score. If you solve the research section, then the performance in this section will not affect your official score and vice-versa is also true.
